

Navigating A Changing World

Humans, Environment, and Ethics in the Anthropocene

Discussion Questions

Pre-viewing questions:

1. Are humans part of “nature”?

2. How do you measure the value of nature and the environment?

Post-viewing questions:

3. What has enabled humans to adapt to such a wide variety of environments?

4. According to Spencer, why do humans need to consider readapting to their environments?
How can this be done?
